Lake Flato Architects, San Antonio, TX

Bluffview

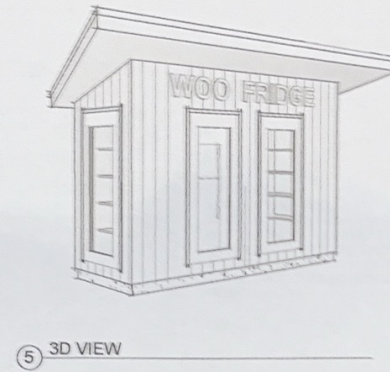

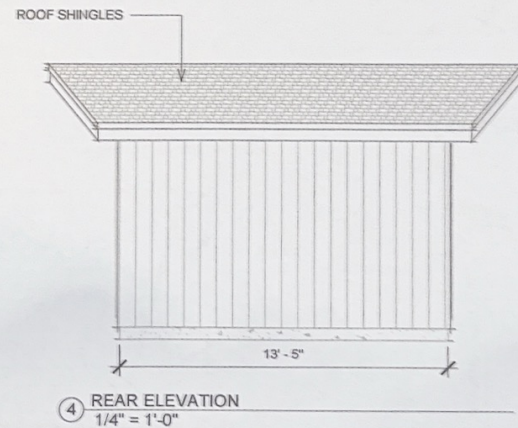

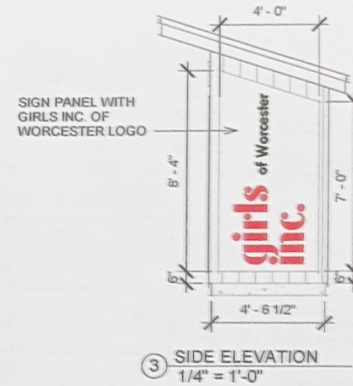

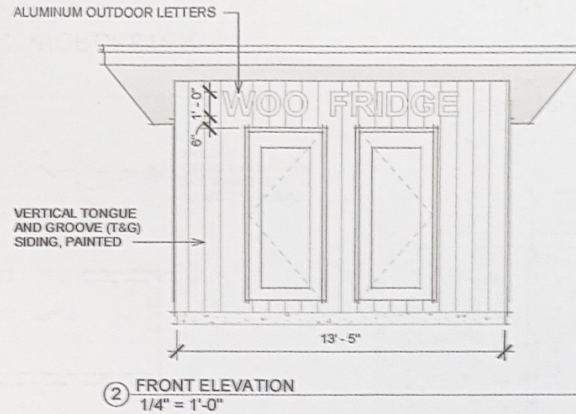

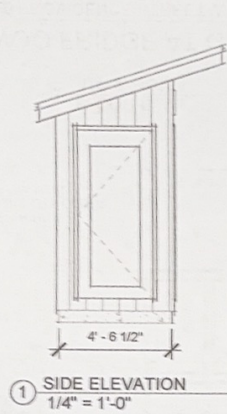

Conceived as an urban camp, Bluffview sits on a narrow lot in a historic Dallas neighborhood, a hidden gem among its surrounding traditional houses. Four modules, pulled far back from the site's main street, convert a central courtyard of mature trees into a lush living room with a carpet of thick grass. A large porch connects the main house and outdoor living room, where the family spends most of their time enjoying the outdoors.
